

Full Mock 3

Chapter F11.6 — 120 Questions, Calibrated Above the Paper, With the Formats That Punish Partial Knowledge

Module	Foundation Layer — Module 11 — PYQ Analysis, Mocks and Final Revision
Chapter	Chapter F11.6
Topic	Full-length mock examination, third paper
Version	v1.0
Compiled	22 August 2026
Exam stage	Recruitment Test (RT)

MUST MASTER · THIS PAPER IS HARDER THAN THE EXAMINATION, DELIBERATELY

Mock 1 was set to the observed shape. Mock 2 was set to the trap catalogue. **Mock 3 is set above the paper**, and it is harder in one measurable respect: **it is loaded with the formats that convert partial knowledge into zero.**

Format	Mock 1	Mock 2	Mock 3
Count items — <i>how many of the above</i>	2	3	7
Assertion-Reason items	0	0	5
Pair-matching items	2	1	3
Negative stems	3	6	5

Sit this at week 12, closest to the paper. Expect a score below Mock 2. A candidate who scores 160 here is in better shape than one who scores 185 on Mock 1, because the formats here are the ones that decide the real paper's tail.

NOTE · WHY THE COUNT AND ASSERTION-REASON LOADING IS THE RIGHT WAY TO MAKE A MOCK HARDER

There are two ways to harden a paper. You can ask **obscurer facts**, or you can ask **the same facts in formats that require complete rather than partial knowledge**. The first produces a paper that does not resemble the examination and teaches nothing. The second produces exactly the pressure the real paper applies.

F11.4 §3.1 explains the mathematics: in the older *1 and 2 only* format, confident knowledge of two statements often determined the answer, whereas the count format requires you to adjudicate **every** statement. **One uncertain statement destroys the item**. Seven such items here is 17.5 marks that cannot be half-won.

So the facts in this paper are not exotic. **The formats are**. That is the design.

Table of Contents

0. How This Chapter Works

1. Instructions

2. Part I — General English (Questions 1 to 20)

3. Part II — Quantitative Aptitude and Reasoning (Questions 21 to 32)

4. Part III — General Science and Computer Applications (Questions 33 to 49)

5. Part IV — Indian Polity and Governance (Questions 50 to 62)

6. Part V — Labour Laws and Industrial Relations (Questions 63 to 74)

7. Part VI — Social Security and EPFO (Questions 75 to 83)

8. Part VII — History, Freedom Movement and Culture (Questions 84 to 93)

9. Part VIII — Accounting, Auditing and Statistics (Questions 94 to 105)

10. Part IX — Indian Economy (Questions 106 to 111)

11. Part X — Current Affairs (Questions 112 to 119)

12. Part XI — Insurance (Question 120)

13. Answer Key

14. Explanations

14.1 Part I — General English

14.2 Part II — Quantitative Aptitude and Reasoning

14.3 Part III — General Science and Computer Applications

14.4 Part IV — Indian Polity and Governance

14.5 Part V — Labour Laws and Industrial Relations

14.6 Part VI — Social Security and EPFO

14.7 Part VII — History, Freedom Movement and Culture

14.8 Part VIII — Accounting, Auditing and Statistics

14.9 Parts IX to XI — Economy, Current Affairs, Insurance

15. Score Analysis

15.1 Part-wise score

15.2 The three-mock trend — the only chart that matters

15.3 Format diagnosis

16. One-Minute Revision — What This Mock Was Testing

17. Five-Minute Wall Sheet — The Final Protocol

0. How This Chapter Works

STUDY SESSION · CHAPTER F11.6

A **two-hour examination**, then about **ninety minutes** of analysis. Budget **half a day**.

Section	Content
§1	Instructions and composition
§2 to §12	The paper — 120 questions in eleven parts
§13	Answer key
§14	Explanations, part by part
§15	Score analysis, and the three-mock trend
§16, §17	What the mock was testing, and the final protocol

Composition is identical to Mocks 1 and 2. That is what makes the three-mock trend in §15.2 meaningful.

ACTION · SIT THIS ONE WITH THE PARTS INTERLEAVED

Mocks 1 and 2 were labelled by subject. **The real paper is not.** For this final mock, do the following before you start the clock:

Attempt the parts in this order — **VIII, I, VI, III, V, X, II, VII, IV, IX, XI** — and mark your answer sheet against the **printed question numbers**, not the order you attempt them in.

This does two things. It simulates the interleaving F11.1 §1.3 describes, and it stress-tests the **block-of-ten OMR discipline** from F11.4 §7.4 under exactly the condition that produces row drift. If you are going to make a bubbling error, make it here.

1. Instructions

Part	Subject	Questions	Marks
I	General English	20	50
II	Quantitative Aptitude and Reasoning	12	30
III	General Science and Computer Applications	17	42.5
IV	Indian Polity and Governance	13	32.5
V	Labour Laws and Industrial Relations	12	30
VI	Social Security and EPFO	9	22.5
VII	History, Freedom Movement and Culture	10	25
VIII	Accounting, Auditing and Statistics	12	30
IX	Indian Economy	6	15
X	Current Affairs	8	20
XI	Insurance	1	2.5
Total		120	300

+2.5 correct, -0.8333 wrong, 0 blank. 120 minutes.

2. Part I — General English (Questions 1 to 20)

- Q1.** Choose the word closest in meaning to **OBDURATE**. (a) obscure and difficult (b) willingly obedient (c) stubbornly unyielding (d) overwhelmingly large
- Q2.** Choose the word most **opposite** in meaning to **ALACRITY**. (a) eagerness (b) reluctance (c) briskness (d) courtesy
- Q3.** An abnormal fear of confined spaces is (a) agoraphobia (b) claustrophobia (c) acrophobia (d) xenophobia
- Q4.** The idiom **to throw in the towel** means (a) to admit defeat (b) to start a quarrel (c) to clean thoroughly (d) to offer assistance
- Q5.** Find the part containing an error. (a) The Commissioner along with his officers (b) were present (c) at the hearing (d) held on Monday last.
- Q6.** Find the part containing an error. (a) One of the reason for the delay (b) was the failure of the employer (c) to file the return (d) within the prescribed time.
- Q7.** The tribunal acquiesced _____ the request for an adjournment. (a) to (b) with (c) in (d) for
- Q8.** His statement was wholly _____ with the documents on record. (a) irrespective (b) irreverent (c) irresolute (d) inconsistent
- Q9.** Select the best improvement: He is senior __than me__ in the department. (a) than mine (b) to me (c) then me (d) from me
- Q10.** Arrange the sentences into a coherent paragraph. **P.** Whether it works therefore depends on collection, not on drafting. **Q.** The Code on Social Security recognises gig and platform workers for the first time. **R.** That shift matters because there is no payroll from which to deduct a contribution. **S.** It places the obligation on aggregators rather than on a traditional employer. (a) Q-R-S-P (b) S-Q-R-P (c) R-S-Q-P (d) Q-S-R-P
- Q11.** Arrange the sentences into a coherent paragraph. **P.** The Comptroller and Auditor General audits them. **Q.** Accounting and auditing in India were separated in 1976. **R.** The Controller General of Accounts now maintains the accounts. **S.** Before that, one office discharged both functions. (a) S-Q-P-R (b) Q-S-R-P (c) Q-R-P-S (d) R-P-Q-S
- Q12.** Choose the correctly spelt word. (a) occurrence (b) occurence (c) ocurrence (d) occurance
- Q13.** Choose the correct passive form of: **The Board is considering the proposal.** (a) The proposal is considered by the Board. (b) The proposal has been considered by the Board. (c) The proposal is being considered by the Board. (d) The proposal was being considered by the Board.
- Q14.** Choose the correct indirect form of: He said, "**I shall file the return tomorrow.**" (a) He said that he shall file the return tomorrow. (b) He said that he will file the return the following day. (c) He said he had filed the return the next day. (d) He said that he would file the return the next day.

Passage for Questions 15 to 18.

There is a temptation, when a body of law is consolidated, to treat the consolidation as the reform. It is not. Replacing twenty-nine enactments with four is an act of drafting, and drafting is the cheapest part of any reform programme. What determines whether a labour code improves the position of a worker is not the elegance of its definitions but the density of the administrative machinery available to enforce them, and that machinery is not created by a gazette notification.

The point can be put more sharply. A statute that extends an entitlement to a worker who has no registered employer has extended nothing until somebody can identify the worker, identify the person liable, and collect from that person. Each of those three steps is an administrative capability rather than a legal one. This is why the sceptical question to ask of any social security reform is not whether the entitlement is generous but whether the obligation is collectible. Generosity on paper is free; collection is expensive, and it is where reform programmes are quietly abandoned.

None of which is an argument against consolidation. Simplification has genuine value: a single registration is cheaper for the employer than six, and a single definition of wages removes an avenue of avoidance. But these are gains in **compliance cost**, not in coverage, and the two are routinely conflated by those announcing the reform and by those opposing it.

Q15. The author's central contention is that (a) consolidation of labour law is undesirable (b) the four Codes are poorly drafted (c) consolidation is drafting rather than reform, and enforcement capacity is what matters (d) social security entitlements should be less generous

Q16. According to the passage, the correct sceptical question about a social security reform is whether (a) the entitlement is generous (b) the drafting is elegant (c) employers support it (d) the obligation is collectible

Q17. The author regards simplification as (a) worthless (b) the principal achievement of the Codes (c) a genuine gain, but in compliance cost rather than coverage (d) harmful to workers

Q18. The phrase "**Generosity on paper is free**" is used to suggest that (a) statutes should avoid generous language (b) workers do not value entitlements (c) announcing an entitlement costs nothing compared with enforcing it (d) collection is administratively simple

Q19. Choose the grammatically correct sentence. (a) Neither of the two schemes is applicable to this establishment. (b) Neither of the two schemes are applicable to this establishment. (c) Neither of the two schemes were applicable to this establishment. (d) Neither of the two scheme is applicable to this establishment.

Q20. Choose the sentence free of redundancy. (a) The employer filed the return after the due date. (b) He returned back the file to the section. (c) The reason for the delay is because the return was late. (d) Both the parties were mutually agreed on the terms.

3. Part II — Quantitative Aptitude and Reasoning (Questions 21 to 32)

- Q21.** An employer defaults on dues of ₹60,000. Simple interest at 12% per annum for four months is (a) ₹2,400 (b) ₹7,200 (c) ₹600 (d) ₹1,200
- Q22.** A sum at compound interest amounts to ₹4,840 in two years and ₹5,324 in three years. The rate per annum is (a) 10% (b) 8% (c) 12% (d) 11%
- Q23.** Two numbers are in the ratio 3 : 5. If each is increased by 10, the ratio becomes 5 : 7. The sum of the original numbers is (a) 30 (b) 50 (c) 60 (d) 40
- Q24.** A completes one-third of a work in 5 days and B completes two-fifths of the same work in 8 days. Working together they will finish the whole work in (a) 9 days (b) 8 and four-sevenths days (c) 7 and a half days (d) 10 days
- Q25.** A man rows 12 km downstream in 2 hours and returns in 3 hours. The speed of the stream is (a) 2 km/h (b) 5 km/h (c) 1 km/h (d) half a km/h
- Q26.** An article is marked 25% above cost and then sold at a discount of 20%. The profit percentage is (a) nil (b) 5% (c) 2.5% (d) 4%
- Q27.** The average age of 5 members of a committee is 30 years. A sixth member joins and the average becomes 29 years. The age of the new member is (a) 25 years (b) 23 years (c) 24 years (d) 26 years
- Q28.** The unemployment rate rises from 5% to 6%. This is correctly described as (a) a rise of 1% (b) a rise of 20% only (c) a rise of one percentage point, and of 20% (d) a rise of 16.67%
- Q29. Assertion (A):** The median of a distribution can be located graphically from an ogive. **Reason (R):** The median is a positional average. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true
- Q30. Statements:** All commissioners are officers. No officer is a clerk. **Conclusions: I.** No commissioner is a clerk. **II.** Some officers are commissioners. (a) Only I follows (b) Only II follows (c) Both follow (d) Neither follows
- Q31.** If 1 January 2026 is a Thursday, then 1 March 2026 is a (a) Saturday (b) Monday (c) Sunday (d) Friday
- Q32.** The angle between the hands of a clock at 3:40 is (a) 120 degrees (b) 140 degrees (c) 150 degrees (d) 130 degrees

4. Part III — General Science and Computer Applications (Questions 33 to 49)

Q33. A body moving in a circle at constant speed has (a) acceleration directed towards the centre (b) zero acceleration (c) constant velocity (d) no net force acting on it

Q34. The work done by the centripetal force in uniform circular motion is (a) maximum (b) zero (c) negative (d) equal to the kinetic energy

Q35. Total internal reflection occurs when light travels (a) from a rarer to a denser medium (b) in any medium at any angle (c) from a denser to a rarer medium at an angle greater than the critical angle (d) from vacuum into glass

Q36. Consider the following statements. **I.** Sound cannot travel through a vacuum. **II.** Light travels faster in water than in air. **III.** Sound travels faster in solids than in gases. **IV.** The speed of sound in air increases with temperature. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four

Q37. The SI unit of radioactivity is the (a) sievert (b) gray (c) roentgen (d) becquerel

Q38. Baking soda is chemically (a) sodium carbonate (b) sodium bicarbonate (c) calcium carbonate (d) sodium hydroxide

Q39. Assertion (A): The noble gases are chemically inert. **Reason (R):** They have completely filled outermost electron shells. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true

Q40. Consider the following pairs. **I.** Anopheles and malaria. **II.** Aedes and dengue. **III.** Culex and kala-azar. **IV.** Sandfly and filariasis. How many pairs are correctly matched? (a) Only one (b) Only two (c) Only three (d) All four

Q41. The fat-soluble vitamins are (a) B complex and C (b) A, B and C (c) C and D only (d) A, D, E and K

Q42. The largest gland in the human body is the (a) liver (b) pancreas (c) thyroid (d) pituitary

Q43. The blood group regarded as the universal donor is (a) AB positive (b) O negative (c) A positive (d) O positive

Q44. Integrated circuits characterised which generation of computers? (a) First (b) Second (c) Fourth (d) Third

Q45. Which one of the following is volatile memory? (a) ROM (b) RAM (c) Hard disk (d) Flash drive

Q46. An IPv6 address is of length (a) 128 bits (b) 32 bits (c) 64 bits (d) 256 bits

Q47. In the OSI model, the layer immediately **above** the network layer is the (a) transport layer (b) data link layer (c) session layer (d) presentation layer

Q48. A primary key (a) permits one null value (b) permits duplicate values (c) permits neither nulls nor duplicates (d) is optional in every table

Q49. A worm differs from a virus in that a worm (a) requires a host file to spread (b) disguises itself as legitimate software (c) self-replicates and spreads without user action (d) affects only wireless networks

5. Part IV — Indian Polity and Governance (Questions 50 to 62)

- Q50.** Consider the following statements. **I.** A Money Bill can be introduced only in the Lok Sabha. **II.** The Rajya Sabha must return a Money Bill within fourteen days. **III.** The Speaker's certificate that a bill is a Money Bill is final. **IV.** A joint sitting may be held to resolve a deadlock on a Money Bill. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four
- Q51.** Laws placed in the Ninth Schedule (a) enjoy absolute immunity from judicial review (b) cannot be added to after 1951 (c) relate to anti-defection (d) may be challenged on the ground that they violate the basic structure
- Q52.** Which pair is correctly matched? (a) Article 280 and the Election Commission (b) Article 324 and the Finance Commission (c) Article 76 and the Solicitor General (d) Article 148 and the Comptroller and Auditor General
- Q53.** A no-confidence motion (a) must state the grounds on which it is moved (b) may be moved in either House (c) is directed against an individual minister (d) requires the support of fifty members to be admitted in the Lok Sabha
- Q54.** The words **socialist** and **secular** were inserted into the Preamble by the (a) 44th Amendment (b) 42nd Amendment (c) 1st Amendment (d) 24th Amendment
- Q55.** Which right was removed from Part III and re-enacted as Article 300A? (a) Right to education (b) Right to constitutional remedies (c) Right against exploitation (d) Right to property
- Q56. Assertion (A):** The Sixth Schedule applies to the tribal areas of four north-eastern States. **Reason (R):** Those areas required autonomous district councils to administer tribal affairs. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true
- Q57.** The quorum for a sitting of either House of Parliament is (a) one-third (b) one-half (c) fifty members (d) one-tenth of the total membership of that House
- Q58.** A State Finance Commission is required to be constituted every (a) three years (b) four years (c) six years (d) five years
- Q59.** Which writ is **curative** rather than preventive? (a) Prohibition (b) Certiorari (c) Mandamus (d) Quo warranto
- Q60.** Under the 73rd Amendment, the three-tier structure is mandatory only in States with a population exceeding (a) twenty lakh (b) ten lakh (c) fifty lakh (d) one crore
- Q61.** Article 359 permits the suspension of the enforcement of rights, but the enforcement of which Articles can never be suspended? (a) 14 and 19 (b) 20 and 21 (c) 19 and 21 (d) 21 and 22
- Q62.** The award period of the Sixteenth Finance Commission begins in (a) 2026 (b) 2025 (c) 2027 (d) 2030

6. Part V — Labour Laws and Industrial Relations (Questions 63 to 74)

Q63. Consider the following statements. **I.** The Code on Wages subsumed four central Acts. **II.** The Industrial Relations Code subsumed three. **III.** The Code on Social Security subsumed nine. **IV.** The Occupational Safety, Health and Working Conditions Code subsumed thirteen. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four

Q64. Which enactment was **not** subsumed into the Occupational Safety, Health and Working Conditions Code? (a) Factories Act, 1948 (b) Trade Unions Act, 1926 (c) Contract Labour (Regulation and Abolition) Act, 1970 (d) Inter-State Migrant Workmen Act, 1979

Q65. Under the Industrial Relations Code, standing orders apply to an industrial establishment employing (a) 50 or more (b) 100 or more (c) 300 or more workers (d) 200 or more

Q66. The Industrial Relations Code prohibits a strike during conciliation proceedings and for (a) fourteen days (b) seven days after their conclusion (c) thirty days (d) sixty days

Q67. Assertion (A): The Trade Unions Act, 1926 did not make registration of a trade union compulsory. **Reason (R):** Registration conferred immunities and a corporate personality which unions found advantageous. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true

Q68. A fixed term employee under the Industrial Relations Code is entitled to gratuity (a) on a pro rata basis (b) only after five years of continuous service (c) not at all (d) only in the event of death

Q69. Which of the following is a category newly defined by the labour Codes? (a) Gig worker (b) Workman (c) Employee (d) Apprentice

Q70. The aggregator's contribution towards gig and platform workers is expressed as (a) twelve per cent of wages (b) 8.33 per cent of turnover (c) a flat annual registration fee (d) one to two per cent of turnover, subject to a cap related to payments made to such workers

Q71. The so-called fifty per cent rule in the definition of wages is designed to (a) increase take-home pay (b) cap the bonus payable (c) limit overtime hours (d) prevent an employer structuring remuneration so as to shrink the wage component

Q72. Under the Occupational Safety, Health and Working Conditions Code, an appointment letter is (a) optional (b) mandatory for every employee (c) required only for contract labour (d) required only where 300 or more workers are employed

Q73. Which of the following recommended consolidating the central labour laws into a small number of groups, and is therefore the direct ancestor of the four Codes? (a) First National Commission on Labour, 1969 (b) Royal Commission on Labour, 1931 (c) Fifteenth Indian Labour Conference, 1957 (d) Second National Commission on Labour, 2002

Q74. Consider the following. India has ratified ILO Convention **I.** 87 **II.** 29 **III.** 182 **IV.** 98. How many of the above have been ratified? (a) Only one (b) Only two (c) Only three (d) All four

7. Part VI — Social Security and EPFO (Questions 75 to 83)

Q75. The Employees' Provident Funds Scheme, 1952 was replaced by (a) the Employees' Pension Scheme, 2026 (b) the Employees' Provident Funds Scheme, 2026 (c) the Employees' Deposit Linked Insurance Scheme, 2026 (d) nothing, it remains in force

Q76. In the monthly pension formula, pensionable salary multiplied by pensionable service is divided by (a) 60 (b) 75 (c) 70 (d) 80

Q77. Pensionable salary is the average of the last (a) 12 months (b) 60 months (c) 36 months (d) 120 months of contributory service

Q78. Assertion (A): An employee makes no contribution to the deposit-linked insurance scheme. **Reason (R):** That scheme is funded wholly by the employer, at 0.50 per cent of wages. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true

Q79. The age of superannuation under the pension scheme is (a) 55 years (b) 60 years (c) 58 years (d) 62 years

Q80. Orphan pension is payable at what proportion of the widow pension? (a) 25 per cent (b) 50 per cent (c) 100 per cent (d) 75 per cent

Q81. The bonus component of the deposit-linked insurance benefit is subject to a ceiling of (a) ₹1,00,000 (b) ₹1,75,000 (c) ₹1,50,000 (d) ₹2,50,000

Q82. Under EPFO 3.0, the proportion of the accumulated balance that may be withdrawn through UPI is up to (a) 75 per cent (b) 50 per cent (c) 60 per cent (d) 90 per cent

Q83. Consider the following statements. **I.** The wage ceiling for provident fund coverage is ₹15,000. **II.** A proposal to raise that ceiling to ₹25,000 has been notified. **III.** The minimum monthly pension is ₹1,000. **IV.** The rate of interest on provident fund accumulations for 2025-26 is 8.25 per cent. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four

8. Part VII — History, Freedom Movement and Culture (Questions 84 to 93)

Q84. Which pair is correctly matched? (a) Al-Hilal and Motilal Nehru (b) Bengalee and Aurobindo Ghosh (c) Sudharak and Bal Gangadhar Tilak (d) Young India and Mahatma Gandhi

Q85. The Ahmedabad mill workers' dispute of 1918 is significant as Gandhi's first use in India of (a) satyagraha (b) non-cooperation (c) civil disobedience (d) the hunger strike

Q86. The Communal Award of 1932 was announced by (a) Ramsay MacDonald (b) Lord Irwin (c) Stafford Cripps (d) Lord Linlithgow

Q87. The Karachi session of 1931 is remembered for its resolution on (a) Purna Swaraj (b) Quit India (c) Fundamental Rights and Economic Policy (d) Non-Cooperation

Q88. Consider the following statements. **I.** The Indian National Congress was founded in 1885 at Bombay. **II.** Badruddin Tyabji was its first Muslim president. **III.** George Yule was its first English president. **IV.** Mahatma Gandhi presided over three of its sessions. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four

Q89. The Chittagong armoury raid of 1930 was led by (a) Bhagat Singh (b) Surya Sen (c) Chandrashekhar Azad (d) Barindra Kumar Ghosh

Q90. Which of the following was **not** a member of the Cabinet Mission of 1946? (a) Pethick-Lawrence (b) Stafford Cripps (c) Lord Wavell (d) A. V. Alexander

Q91. Separate electorates were first introduced in India by the (a) Indian Councils Act, 1892 (b) Morley-Minto Reforms, 1909 (c) Montagu-Chelmsford Reforms, 1919 (d) Government of India Act, 1935

Q92. The Whitley Commission, which reported between 1929 and 1931, was concerned with (a) labour (b) currency and finance (c) agriculture (d) education

Q93. Arrange the following in chronological order. **1.** Jallianwala Bagh **2.** Chauri Chaura **3.** Dandi March **4.** Quit India Movement (a) 2-1-3-4 (b) 1-3-2-4 (c) 1-2-4-3 (d) 1-2-3-4

9. Part VIII — Accounting, Auditing and Statistics (Questions 94 to 105)

- Q94.** The accounting equation is (a) Assets equals Liabilities minus Capital (b) Assets equals Liabilities plus Capital (c) Capital equals Assets plus Liabilities (d) Liabilities equals Assets plus Capital
- Q95.** Which of the following is a **real** account? (a) Rent account (b) Capital account (c) Discount account (d) Machinery account
- Q96.** Deferred revenue expenditure is (a) revenue in nature but written off over several accounting periods (b) capital in nature (c) never written off (d) permanently shown as an asset
- Q97.** Which one of the following is **not** a cause of depreciation? (a) Wear and tear (b) Efflux of time (c) An increase in the market value of the asset (d) Obsolescence
- Q98.** A contingent liability is (a) provided for on the face of the balance sheet (b) an appropriation of profit (c) a form of reserve (d) disclosed by way of a note
- Q99.** The inventory turnover ratio is classified as (a) a liquidity ratio (b) a solvency ratio (c) a profitability ratio (d) an activity ratio
- Q100.** The purchase of a fixed asset appears in the cash flow statement under (a) investing activities (b) operating activities (c) financing activities (d) it does not appear
- Q101.** Propriety audit is concerned with (a) arithmetical accuracy (b) compliance with rules alone (c) the adequacy of internal check (d) the wisdom, faithfulness and economy of expenditure
- Q102.** Which body, constituted in 2018, oversees auditing standards and discipline for specified classes of companies? (a) Institute of Chartered Accountants of India (b) Securities and Exchange Board of India (c) Comptroller and Auditor General (d) National Financial Reporting Authority
- Q103. Assertion (A):** Government accounting in India is predominantly cash-based. **Reason (R):** The Companies Act mandates the accrual basis of accounting. (a) Both A and R are true, and R explains A (b) Both are true, but R does not explain A (c) A is true, R is false (d) A is false, R is true
- Q104.** Fisher's ideal index is the (a) arithmetic mean of the Laspeyres and Paasche indices (b) harmonic mean of the two (c) geometric mean of the Laspeyres and Paasche indices (d) median of the two
- Q105.** In a moderately skewed distribution, the mode is approximately (a) three times the median minus twice the mean (b) twice the median minus three times the mean (c) three times the mean minus twice the median (d) the mean minus the median

10. Part IX — Indian Economy (Questions 106 to 111)

Q106. The N. K. Singh Committee recommended a debt-to-GDP anchor of (a) 60 per cent in total, being 40 for the Centre and 20 for the States (b) 50 per cent in total (c) 70 per cent in total (d) 60 per cent for the Centre alone

Q107. The Goods and Services Tax Council takes decisions by a majority of (a) two-thirds of the weighted votes (b) a simple majority (c) three-fourths of the weighted votes (d) unanimity

Q108. The classification of micro, small and medium enterprises since 2020 is based on (a) investment alone (b) turnover alone (c) the number of persons employed (d) both investment and turnover

Q109. The priority sector lending target for a domestic scheduled commercial bank is (a) 30 per cent (b) 18 per cent (c) 40 per cent of adjusted net bank credit (d) 50 per cent

Q110. Disguised unemployment in India is characteristically associated with (a) manufacturing (b) services (c) agriculture (d) construction

Q111. Under the Periodic Labour Force Survey, the **usual status** is determined with reference to a period of (a) three hundred and sixty-five days (b) seven days (c) thirty days (d) one hundred and eighty days

11. Part X — Current Affairs (Questions 112 to 119)

Q112. EPFO has reduced its thirteen categories of withdrawal to (a) five (b) three (c) seven (d) nine

Q113. The India-United Kingdom Double Contributions Convention came into force on (a) 1 April 2026 (b) 15 July 2026 (c) 29 June 2026 (d) 21 November 2025

Q114. The detachment exemption under that Convention runs for (a) 24 months (b) 60 months (c) 36 months (d) 120 months

Q115. Foreign direct investment of 100 per cent in insurance is permitted through (a) the government route (b) the automatic route (c) a mixed route (d) no route, it applies only to LIC

Q116. Foreign shareholding in the Life Insurance Corporation remains capped at (a) 10 per cent (b) 26 per cent (c) 49 per cent (d) 20 per cent

Q117. Consider the following statements. **I.** The four labour Codes commenced on 21 November 2025. **II.** Goods and Services Tax moved to two principal slabs in September 2025. **III.** The Income-tax Act, 2025 took effect on 1 April 2026. **IV.** The provident fund wage ceiling has been raised to ₹25,000. How many of the above are correct? (a) Only one (b) Only two (c) Only three (d) All four

Q118. The rural employment guarantee Act of 2025 is referred to in short as (a) VB-G RAM G (b) MGNREGA (c) NREGS (d) PMGSY

Q119. India's total fertility rate is now (a) below the replacement level (b) above the replacement level (c) exactly at the replacement level (d) not officially estimated

12. Part XI — Insurance (Question 120)

Q120. Insurable interest is required to exist at the time of the **loss**, and not merely when the policy is taken, in the case of (a) life insurance (b) fire insurance (c) marine insurance (d) both life and fire insurance

13. Answer Key

Score = (2.5 × correct) - (0.8333 × wrong)

Q	A	Q	A	Q	A	Q	A	Q	A	Q	A

14. Explanations

NOTE · THE SEVEN COUNT ITEMS ARE THE POINT OF THIS PAPER

Q36, Q40, Q50, Q63, Q74, Q83, Q88 and Q117 are count or pair-count items. Read their explanations even if you got them right, and note **which single statement** you were unsure of. That statement, not the topic, is your gap.

14.1 Part I — General English

Q	A	Trap	Explanation
1	c	—	<i>Obdurate</i> — stubbornly refusing to change an opinion. F8.1
2	b	—	<i>Alacrity</i> is cheerful readiness, so <i>reluctance</i> opposes it. <i>Eagerness</i> and <i>briskness</i> restate it. F8.1
3	b	—	<i>Claustrophobia</i> . <i>Agoraphobia</i> is fear of open or public spaces — the intended near-miss. F8.1
4	a	—	<i>To throw in the towel</i> — to admit defeat, from boxing. F8.1
5	b	T-22	Along with does not change the number of the subject, so the verb agrees with <i>The Commissioner: was present</i> . F8.4
6	a	—	One of the takes a plural noun: <i>one of the reasons</i> . F8.4
7	c	—	<i>Acquiesce in</i> . F8.4
8	d	—	<i>Inconsistent with</i> — the only one of the four that takes <i>with</i> and carries the required sense. F8.1
9	b	—	<i>Senior to</i> , not <i>than</i> . Comparatives of Latin origin — senior, junior, superior, inferior, prior — all take <i>to</i> . F8.4
10	d	—	Q-S-R-P. Q introduces, S states the mechanism, R explains why it matters, P concludes with <i>therefore</i> . F8.2
11	b	—	Q-S-R-P. <i>Before that</i> in S must follow Q's date; R and P then give the two present offices in order. F8.2
12	a	—	Occurrence — double <i>c</i> , double <i>r</i> . F8.1
13	c	—	Present continuous active becomes present continuous passive: <i>is being considered</i> . F8.4
14	d	—	<i>Shall</i> back-shifts to <i>would</i> and <i>tomorrow</i> to <i>the next day</i> . Both changes are required. F8.4
15	c	T-04	The passage's thesis. The author explicitly denies that consolidation is undesirable, so the strongest-sounding option is not the right one. F8.3
16	d	—	Stated almost verbatim: the question is "whether the obligation is collectible". F8.3

Q	A	Trap	Explanation
17	c	T-08	The author calls simplification a genuine gain , but in compliance cost rather than coverage — a hedged, two-part position, and hedged options are usually correct. F8.3
18	c	—	The contrast is between the cost of announcing and the cost of enforcing. F8.3
19	a	—	Neither of takes a singular verb. F8.4
20	a	—	<i>Returned back, reason is because</i> and <i>mutually agreed</i> are all pleonastic. F8.4

14.2 Part II — Quantitative Aptitude and Reasoning

Q	A	Trap	Explanation
21	a	—	$60,000 \times 12/100 \times 4/12 = \text{₹}2,400$. The four-month fraction is where the errors occur. F8.5
22	a	—	$5,324 \div 4,840 = 1.10$, so the rate is 10% . Successive CI amounts differ by a factor of $(1 + r)$. F8.5
23	d	—	$(3x + 10)/(5x + 10) = 5/7$ gives $x = 5$, so the numbers are 15 and 25 and the sum is 40 . F8.5
24	b	—	A's full work is 15 days, B's 20. Together $1/15 + 1/20 = 7/60$, so 8 and four-sevenths days . Convert the part-work to whole-work first. F8.5
25	c	—	Downstream 6 km/h, upstream 4 km/h, so stream $= (6 - 4)/2 = \textbf{1 km/h}$. Half the difference, not the difference. F8.5
26	a	—	CP 100, MP 125, $SP = 125 \times 0.8 = 100$, so profit is nil . A 25% mark-up and a 20% discount cancel exactly. F8.5
27	c	—	Total was 150; the new total is $29 \times 6 = 174$, so the new member is 24 . F8.5
28	c	T-21	A rise from 5% to 6% is one percentage point and 20% . Both descriptions are correct, and the item requires you to notice that the complete answer contains both. F8.5
29	a	T-14	Both true, and the reason does explain the assertion: it is precisely because the median is positional that it can be read off a cumulative frequency curve. F6.8
30	c	—	From <i>All commissioners are officers</i> and <i>No officer is a clerk</i> , no commissioner is a clerk; and the first premise converts to <i>some officers are commissioners</i> . Both follow . F8.8
31	c	—	2026 is not a leap year, so 1 January to 1 March is $31 + 28 = 59$ days; $59 \bmod 7 = 3$; Thursday + 3 = Sunday . The leap-year check is the trap. F8.8
32	d	—	Angle $= 30H - 5.5M = 90 - 220$, and its magnitude is 130 degrees . F8.8

14.3 Part III — General Science and Computer Applications

Q	A	Trap	Explanation
33	a	T-16	Constant speed is not constant velocity : the direction changes, so there is a centripetal acceleration. F9.1
34	b	—	Zero — the centripetal force is perpendicular to the displacement at every instant. F9.1
35	c	T-17	Both conditions are required: denser to rarer, and beyond the critical angle. Change either and the statement is false. F9.2
36	c	T-03	I, III and IV are true; II is false — light travels slower in water than in air. Three of four. F9.2
37	d	T-21	Becquerel measures radioactivity; the gray measures absorbed dose and the sievert dose equivalent. Three units of the same family. F9.2
38	b	—	Sodium bicarbonate . Sodium carbonate is washing soda. F9.3
39	a	T-14	Both true, and the filled outer shell is the explanation of inertness. Contrast Q103, where the reason is true but irrelevant. F9.3
40	b	T-06	Only I and II. Culex carries filariasis and the sandfly carries kala-azar — pairs III and IV are swapped, which is the whole item. F9.4
41	d	—	A, D, E and K are fat-soluble; the B complex and C are water-soluble. F9.4
42	a	—	The liver , which is both the largest gland and the largest internal organ. F9.4
43	b	—	O negative is the universal donor; AB positive is the universal recipient. F9.4
44	d	—	Third generation. First used vacuum tubes, second transistors, fourth microprocessors. F9.5
45	b	T-21	RAM is volatile; ROM, hard disks and flash drives retain data without power. F9.5
46	a	T-09	128 bits , against IPv4's 32. The 64-bit option corresponds to nothing. F9.7
47	a	T-10	The order upward is physical, data link, network, transport , session, presentation, application. F9.7
48	c	T-21	A primary key permits neither nulls nor duplicates; a unique key permits one null. F9.6
49	c	T-21	A worm self-replicates and spreads without user action ; a virus needs a host file, a trojan disguises itself. F9.6

14.4 Part IV — Indian Polity and Governance

Q	A	Trap	Explanation
50	c	T-03	I, II and III are true; IV is false — there is no joint sitting on a Money Bill. Three of four
51	d	T-07	Since the 2007 decision, Ninth Schedule laws remain open to challenge on basic structure grounds. "Absolute immunity" is the absolute that fails
52	d	T-10	Article 148 and the CAG. Article 280 is the Finance Commission and 324 the Election Commission — the two are offered swapped
53	d	T-21	Fifty members to be admitted, Lok Sabha only, no grounds needed, and directed at the whole Council. The censure motion is the one that states grounds and targets an individual
54	b	T-09	The 42nd Amendment , 1976, which added <i>socialist, secular and integrity</i>
55	d	—	The right to property , deleted by the 44th Amendment and re-enacted as Article 300A, a legal right
56	a	T-14	Both true and the reason explains the assertion. The Sixth Schedule covers Assam, Meghalaya, Tripura and Mizoram — four States, with Nagaland and Manipur the usual decoys
57	d	—	One-tenth of the total membership
58	d	—	Every five years , as with the Union Finance Commission
59	b	T-21	Certiorari quashes an order already made and is curative; prohibition stops proceedings and is preventive
60	a	T-09	Twenty lakh. Below that a State need not constitute the intermediate tier
61	b	—	Articles 20 and 21 , protected by the 44th Amendment
62	a	—	2026 , which is why the Sixteenth Finance Commission is topical this cycle

14.5 Part V — Labour Laws and Industrial Relations

Q	A	Trap	Explanation
63	d	T-03	All four are correct: $4 + 3 + 9 + 13 = 29$. If you were unsure of even one, the item was unanswerable — which is the format's whole purpose. F11.4 §5.1
64	b	T-12	The Trade Unions Act, 1926 went into the Industrial Relations Code. The other three are all OSH Code
65	c	T-23	300 or more . 100 was the repealed 1946 Act figure and is now purely a distractor
66	b	—	Seven days after the conclusion of conciliation proceedings, and sixty days after tribunal proceedings
67	b	T-14	Both statements are true, but the reason explains why unions chose to register , not why registration was not compulsory . A true, adjacent, irrelevant reason — the commonest correct answer in this format and the least often chosen
68	a	—	Pro rata , without the five-year qualifying period. One of the Code's genuinely new entitlements
69	a	—	Gig worker , along with platform worker and aggregator. <i>Workman</i> and <i>employee</i> long predate the Codes
70	d	—	One to two per cent of turnover , capped by reference to the amounts paid to gig and platform workers
71	d	—	To prevent structuring remuneration to shrink the wage component , and therefore the provident fund contribution. F10.3 §1.2 identifies this as the change with the largest practical effect on EPFO administration
72	b	—	Mandatory for every employee — a small provision with large consequences for informal employment
73	d	T-11	The Second National Commission on Labour, 2002, which recommended consolidation into a few groups. The First reported in 1969
74	b	T-03	Only II and III . India has not ratified Conventions 87 and 98 . Two of the four listed are the unratified pair, so the count is two — and a candidate who knows only "India has not ratified two" still cannot answer without knowing which

14.6 Part VI — Social Security and EPFO

Q	A	Trap	Explanation
75	b	T-11	The Employees' Provident Funds Scheme, 2026 . Each 1952, 1995 and 1976 scheme was replaced by its own 2026 successor — do not let the pension scheme absorb all three
76	c	T-09	Divisor 70 . F11.4 §5.2
77	b	T-09	60 months , raised from 12 in 2014 and carried into the 2026 scheme
78	a	T-14	Both true, and the reason does explain: the scheme is employer-funded, so the employee contributes nothing
79	c	T-09	58 , not 60. The commonest single error in this subject
80	d	T-09	75 per cent of widow pension for an orphan; children's pension is 25 per cent for up to two children. The larger figure attaching to the orphan is counter-intuitive, which is why it is asked
81	b	T-09	₹1,75,000 , which with the 35× component produces the ₹7 lakh maximum
82	a	—	Up to 75 per cent by UPI, under EPFO 3.0. F10.3 §1.3
83	c	T-03	I, III and IV are true; II is false — the ₹25,000 ceiling is approved but not notified . Only notified is law, and this is the single most likely trap in the whole subject this cycle

14.7 Part VII — History, Freedom Movement and Culture

Q	A	Trap	Explanation
84	d	T-06	Young India and Gandhi. Al-Hilal was Azad, Bengalee was Surendranath Banerjee, Sudharak was Gokhale — three misattributions in one item
85	d	T-19	The hunger strike . Champaran 1917 was the first satyagraha and Kheda 1918 the first non-cooperation — three "firsts" inside two years
86	a	—	Ramsay MacDonald , August 1932, superseded a month later by the Poona Pact
87	c	—	Fundamental Rights and Economic Policy , Karachi 1931. Purna Swaraj was Lahore 1929
88	c	T-03	I, II and III are true; IV is false — Gandhi presided once , at Belgaum in 1924. Counter-intuitive enough to be reliably examined
89	b	—	Surya Sen
90	c	T-01	Lord Wavell was the Viceroy, not a member of the Mission. The three members were Pethick-Lawrence, Cripps and Alexander
91	b	T-11	1909 , Morley-Minto, for Muslims; 1919 extended the principle to other communities and 1935 further still
92	a	—	Labour — the Royal Commission on Labour, 1929 to 1931
93	d	T-19	1-2-3-4: Jallianwala Bagh 1919, Chauri Chaura 1922, Dandi 1930, Quit India 1942. Anchor years make this immediate

14.8 Part VIII — Accounting, Auditing and Statistics

Q	A	Trap	Explanation
94	b	—	Assets = Liabilities + Capital. F6.1
95	d	T-12	Machinery is a real account. Rent and discount are nominal, capital is personal. F6.1
96	a	T-21	Revenue in nature but written off over several periods — which is what makes it <i>deferred</i> . F6.2
97	c	T-01	An increase in market value is not a cause of depreciation; depreciation reflects use and time, not market price. F6.4
98	d	T-21	Disclosed by way of a note. It becomes a provision only when the outflow is probable and estimable. F6.2
99	d	T-12	An activity or turnover ratio, not a liquidity ratio — the standard classification trap. F6.5
100	a	—	Investing activities. F6.5
101	d	T-21	Wisdom, faithfulness and economy — the classic formulation, going beyond mere legality. F6.7
102	d	T-12	The National Financial Reporting Authority , 2018. The ICAI dates from 1949 and is a professional body. F6.7
103	b	T-14	Both true, but the reason concerns companies , not government, and therefore does not explain why government accounting is cash-based. Contrast Q39 and Q78, where the reason does explain. F6.1
104	c	T-21	The geometric mean, which is why Fisher's index satisfies the time-reversal and factor-reversal tests. F6.8
105	a	T-09	Mode is approximately 3 Median - 2 Mean . The coefficients and their order are both examinable, and reversing them is the trap. F6.8

14.9 Parts IX to XI — Economy, Current Affairs, Insurance

Q	A	Trap	Explanation
106	a	—	60 per cent in total, 40 Centre and 20 States. Learn the triple as a set. F4.3
107	c	T-09	Three-fourths of weighted votes, with the Centre holding one-third and the States two-thirds of the weight. F4.3
108	d	—	Both investment and turnover , since the 2020 composite criterion. F4.4
109	c	—	40 per cent of adjusted net bank credit; 18 per cent is the agriculture sub-target. F4.2
110	c	—	Agriculture. Cyclical unemployment is characteristically a developed-economy phenomenon; disguised unemployment is characteristically Indian agriculture. F4.4
111	a	T-21	365 days for usual status; the seven-day period is current weekly status. The pair is routinely swapped. F4.4
112	b	—	Three , from thirteen. F10.3 §1.3
113	b	T-09	15 July 2026. Four commencement dates inside nine months are all in play this cycle. F10.3 §1.5
114	b	—	60 months of detachment exemption. F10.3 §1.5
115	b	—	The automatic route. F7.1, F10.3
116	d	T-09	20 per cent for LIC, notwithstanding the general 100 per cent. The exception is the question. F7.1
117	c	T-03	I, II and III are true; IV is false — the ceiling remains ₹15,000. The same unnotified figure as Q83, tested from the current-affairs side
118	a	—	VB-G RAM G , in force 1 July 2026, replacing MGNREGA and raising the guarantee to 125 days. F10.3
119	a	—	Below replacement level. F4.5
120	c	T-21	Marine insurance — insurable interest must exist at the time of loss. In life it must exist when the policy is taken; in fire , at both times. The three-way split is the item. F7.1

15. Score Analysis

15.1 Part-wise score

Part	Subject	Questions	Attempted	Correct	Wrong	Accuracy	Marks
I	General English	20					
II	Quantitative Aptitude and Reasoning	12					
III	Science and Computers	17					
IV	Polity	13					
V	Labour Laws	12					
VI	Social Security and EPFO	9					
VII	History and Culture	10					
VIII	Accounting and Statistics	12					
IX	Economy	6					
X	Current Affairs	8					
XI	Insurance	1					
Total		120					

15.2 The three-mock trend — the only chart that matters

Figure	Mock 1 (F11.2)	Mock 2 (F11.5)	Mock 3 (F11.6)	Reading
Total marks				
Accuracy				Should be flat or rising , even as totals fall
Attempts				Should be rising towards 100 to 110
Marks lost to negatives				Should be falling
Count items right, out of 2 / 3 / 7				The clearest single measure of progress

MUST MASTER · HOW TO READ THE TREND, AND THE ONE PATTERN THAT MEANS TROUBLE

The good trajectory: totals fall a little, **accuracy holds**, attempts rise, negatives fall. That is a candidate who is converting knowledge into marks and whose elimination is tightening. Score 160 to 175 here with accuracy at or above 78% and you are in contention.

The bad trajectory, and the only one that requires a change of plan: total holds up but **accuracy falls** while attempts rise. That means you are buying marks with volume and the negatives are eating the purchase. It is the single most common way a well-prepared candidate misses the cut-off, because the total looks acceptable until the negatives are netted.

If that is your pattern, do exactly one thing in the remaining weeks: stop attempting anything on which you cannot name a **hard** elimination, per F11.4 §1.2. Your total will fall for one mock and then rise past where it was.

15.3 Format diagnosis

Format	Items	Right
Count — <i>how many of the above</i>	36, 50, 63, 74, 83, 88, 117	
Pair count	40	
Assertion-Reason	29, 39, 56, 67, 78, 103	
Negative stem	90, 97, and the <i>not</i> items in Parts IV and V	
Chronology	93	

CHECK YOURSELF · THE ASSERTION-REASON PATTERN THIS PAPER SET UP DELIBERATELY

Six assertion-reason items, and they are **not** all the same answer.

Q29, Q39, Q56 and Q78: both true, and the reason **does** explain the assertion. **Q67 and Q103:** both true, and the reason **does not** explain it.

If you answered all six the same way, you were pattern-matching rather than adjudicating, and F11.4 §3.2's three-step order — is A true, is R true, and only then does R produce A — is the fix. **Q103 against Q39 is the pair to study:** both have a true assertion and a true reason, and only one has a causal link.

16. One-Minute Revision — What This Mock Was Testing

ONE-MINUTE REVISION · CHAPTER F11.6

THE FORMATS 7 count items · 6 assertion-reason · 1 pair count · 5 negative stems. **This is what makes a paper hard, not obscure facts**

THE SAME UNNOTIFIED CEILING, TWICE Q83 and Q117 both turn on ₹25,000 being approved but not notified. Still ₹15,000

THE FOUR COMMENCEMENT DATES Codes **21 Nov 2025** · schemes **29 June 2026** · India-UK Convention **15 July 2026** · Income-tax Act **1 April 2026**

EACH OLD SCHEME GOT ITS OWN SUCCESSOR 1952 to the EPF Scheme 2026, 1995 and 1971 to the EPS 2026, 1976 to the EDLI 2026 — Q75

THE NUMBERS THAT DECIDE PART VI divisor **70** · **60** months averaging · superannuation **58** · orphan **75%** · children **25%** · bonus cap **₹1,75,000**

THE SWAPPED VECTORS Culex carries **filariasis**, sandfly carries **kala-azar** — Q40

THE REFERENCE PERIODS usual status **365 days**, current weekly status **7 days** — Q111

INSURABLE INTEREST life at **inception** · marine at **loss** · fire at **both** — Q120

THE ARITHMETIC 25% mark-up and 20% discount cancel exactly · stream speed is **half** the difference · 2026 is **not** a leap year

ONE LINE FOR THE INTERVIEW Consolidating twenty-nine statutes into four is an act of drafting; whether it improves a worker's position depends on whether the obligation is collectible, which is an administrative question rather than a legislative one.

17. Five-Minute Wall Sheet — The Final Protocol

MEMORY · THIS IS THE SHEET FOR THE REAL PAPER

THREE PASSES 55 · 45 · 15 minutes. Checkpoints at Q60 by minute 30, pass 1 by 55, pass 2 by 100

BUBBLE IN BLOCKS OF TEN. Question number against row number at every boundary. First bubble of each block checked in the last five minutes

ELIMINATE ONE, ANSWER IT. A blind guess costs nothing. A **soft** elimination is not an elimination

COUNT ITEMS: T, F or ? BESIDE EVERY STATEMENT. Count arithmetically. One ? makes it a probability question, and you still attempt it

ASSERTION-REASON: THREE STEPS, NEVER TWO. Is A true. Is R true. Only then, does R produce A

CIRCLE THE NEGATION. READ ALL FOUR OPTIONS. READ THE TAIL OF LONG OPTIONS

A NUMBER YOU RECOGNISE BUT CANNOT SLOT IS A TRAP. Which instrument, and which year

APPROVED IS NOT NOTIFIED

NINETY SECONDS MAXIMUM IN PASS 2. The minutes already spent are gone

NO LATE CHANGES ON A FEELING. NO LETTER PATTERNS. THE KEY IS 30/30/30/30

AFTER THIS MOCK, NO NEW MATERIAL. F11.4 §6 and the wall sheets only
